Railroads Active and Higher on Increased Earnings-Local Markets Show the Effect of Bad Weather.

At New York yesterday money on call was steady at 2@21/2 per cent; last loan 2 per cent.

Prime mercantile paper, 4@5 per cent. Sterling exchange was firm, with actual business in bankers' bills at \$4.871/204.87% for demand, and \$4.84\4@4.84\\2 for sixty days; posted rates, \$4.85 and \$4.881/2; com-

mercial bills, \$4.83\\@4.83\. Silver certificates were 59%@61c; bar silver, 59%c; Mexican dollars, 471/2c. Bar sil-

ver at London was 271/2d per ounce. The New York stock market gave evidence yesterday that the selling movement to take profits which developed about the middle of last week had run its course. The professional operators in stocks, who hesitated to resume operations on the eve of a double holiday, were buyers at the opening yesterday. There was no evidence of renewal of outside demand, orders through commission houses being on a very small scale, and not showing a notable increase as prices made progress upward, but the professional traders bought with confidence, and maintained prices quite firmly. There were quite notable advances in the local traction stocks, due to individual causes, the principal one being a rumor that Metropolitan was about to take over Third avenue. There was a heavy demand from shorts in this group, driven to affording material aid to the advance. Otherwise the strength of the market was business and industry. The day's returns of railroad earnings were all extraordinarily favorable, even those of the cotton-carrying roads showing recuperation from the recent low level, on account of the increased movement of cotton induced by the high prices for that staple and the sharp foreign demand. Some of the Western railroads, which suffered severely from last year's snow blockades, are showing large increases, and the increased grain movement caused notable strength in the grangers. But the trunk-line railroad stocks showed the most conspicuous effects of the improved condition of the rate

situation and the continued large volume merchandise traffic. The Southern group of trunk lines, in which the influence and control of Pennsylvania are becoming dominant by large purchases of stocks of the competing companies, were all markedly strong, Pennsylvania leading with an extreme rise of 51/4. Baltimore & Ohio preferred rose over 2 points, being greatly affected by the January state-ment of earnings, which showed practically all of the increase in gross earnings ved for net, with the resulting increase in the latter of over \$661,000 or nearly 158 per cent. The iron and steel stocks were all notably strong on the growing evidences of a continuance of last year's large demand for all grades of iron product. Considering that last year's high prices were made by the urgent demand of belated bidders for a comparatively small part of the year's product, it is estimated that the continued high level of prices for the total product will yield largely increased returns in the aggregate. The eager demand for cotton is also taken large account of as assuring prosperity to the southern section of the country. The Rubber stocks broke sharply without explanation. Not much account was taken of the money outlook and of the opinions of careful observers that a period of higher rates is likely in the near future, owing to the

tion of the currency by the pending finan-There was a good business in bonds at mixed price changes. Total sales, at par value, were \$2,250,000. United States bonds are unchanged in the bid quotations.

Lincoln an Indiana Product.

To the Editor of the Indianapolis Journal: In all the addresses on Abraham Lincoln, published in honor of that "great commoner's" birth anniversary, I fail to note any reference to the fact that Lincoln's formative years-from eight to nineteen, (if I have the figures correct)were passed in the State of Indiana-in southern Indiana. During these plastic years-while character was molding and principles taking root-Abraham Lincoln was a Hoosier boy. "In the Pantheon of my thought" I shall always place the immortal man as a son of Indiana. E. C.

Some Valentines. I ought to write you one to-day.
A valentine? I wish I knew.
Once, years ago—what did I say To her? I wrote her one or two.

Now, let me see * Now, let me see.

Yes—yes, I recollect a line
From one of them. It seems to me 'Twas "Will you be my Valentine?" But then if "Certainly," you say! I wonder what I'd have to do. To be my valentine? And pray What should I have to be to you? And then the question: would you be My paper-lace one, extra fine,

Or just a two-cent com-Tec-hee Yet, will you be my Valentine? No-wait! If you should say me nay, It may be I should come to rue
The asking of it. Well, I may.
I'd best not ask. I wish I knew What that line meant for certainty-But even knowing, how divine What answer you would have for me To "Will you be my Valentine?"

-L'Envoi.-Well, then—come now, and tell me true.
Would you consent? Would you decline
To be my—what?—if I should sue
With "Will you be my Valentine?"

Public Money for the Poor.

What I am about to write is not intended

propriations to benevolent institutions, for

everybody expects nothing but cold law

from Judge Carter in such a case, and

nothing more or less from the Supreme

Court, when it reaches that body, but I

prepare them for what seems to me the in-

evitable. That some of the appropriations

are manifestly in violation of that section

of the Constitution which forbids the use of

public funds for religious and theological

institutions will hardly be questioned, but

what of the others? No one who has ever

had to do with ministering to the poor,

either as an individual or as a representa-

other way than that they serve as an ex-

tion or for not contributing at all, or very

sparingly, where they prefer to do such

service by proxy if at all. "Let them apply to the township trustee," is the convenient

answer to appeals for aid. "I pay taxes for

the relief of the poor, and that is all I care to do." It will be temporarily embarrassing

to some very deserving organizations, bu

deserving upon better resources. Indianapolis, Feb. 12. U.

it will in the end not only be a great relief

to overburdened taxpayers and lop off

many impostors, but it will put the really

write in behalf of the deserving poor, to

CHICAGO, Feb. 13.-Damages to th French crop and higher Paris and Antwerp cables were the chief factors in a strong and active wheat market to-day, but the edge was taken off by sales for profit. May closed 1/sc over . Saturday. Corn closed unchanged and oats 1/3c lower. The provision market was weak, May pork closing 20c, May lard 71/2c and May ribs 71/2010c

Some misguided traders sold wheat early because Liverpool cables were not encouraging, and statistics were regarded as bearish. May opened 1/4c under Saturday at 684@68%c, but repented for its weakness in short order when the big advances at Paris and Antwerp were received. May climbed on an active market to 69c. At this for sale, but support was active enough to prevent any great recession, reports of damage to the French crop giving an undertone of strength to the market. May closed 1/6 up at 68%@68%c. Primary receipts were 973,000 bu, against 849,000 last year. Minneapolis and Duluth reported 977 cars compared with 403 last week and 738 a year ago. Local receipts were 113 cars, four of contract grade. Atlantic port clearances, in wheat and flour, were equal to 243,000 bushels. New York reported five loads taken for export and three loads were sold here to go to Paris via Galveston. Shippers, as a rule, complained of a slack cash demand. Foreigners were good buyers of futures.

Corn was strong on good cables and small country offerings, but was prevented from being too aggressive by the profit-taking sales of some longs. The advance in freight of trading Saturday was a clog to shipping business, but it was asserted that enough business had been booked under the old tariff to keep the roads busy for a month. Receipts here were 1,221 cars. May sold from 34%c to 34%c and closed unchanged at 341/2c. The oats market lagged in spite of the

strength in the neighboring pits. Selling was by big holders and the demand only scattered. Receipts here were 528 cars May ranged from 23%@23%c to 23%@24c, and closed %c lower at 23%c. Profit-taking on a moderate short selling and a slack outside demand sent provisions to the bottom. May pork ranged from \$11.121/2 to \$10.90 and closed 200

under Saturday at \$10.921/2; May lard from \$6.12½ to \$6.07½, closing 7½c down at \$6.07½ and May ribs from \$6.071/2 to \$5.971/2 with the close 71/2010c depressed at \$5.071/2. Estimated receipts to-morrow: Wheat, 68 cars; corn, 716 cars; oats, 360 cars; hogs, 39,000 head Leading futures ranged as follows:

Horses.

UNION STOCKYARDS, INDIANAPOLIS, Feb. 13.-The receipts of horses for the auction sale were about 100 smaller than a week ago, but larger than a year ago and as good as the average at this season of the year. Not many high class animals were represented and the offerings consisted principally of chunks and drafters of generally good quality. There was a good attendance of buyers, principally from the Eastern and New England States, and the market opened with greater activity in the bidding than a week ago. Buyers, however, were not inclined to pay any higher prices at the start, but there were some apparently very urgent orders, and with strong competition the offerings sold usually \$7.50@10 per head higher than a week ago for all that were up to the requirements of the trade. There was not much inquiry from export buyers, and Southern stock could not be sold at any better figures than a week ago. Early transactions included green trotters as high as \$123.50, carriage teams as high as \$265, drafters as high as \$272.50 a pair, and chunks were selling anywhere from \$75@110 as quality. The market was active throughout the day and all were sold at current prices.
